'GRAVEST CONSEQUENCES,' SAYS WILSON'S NOTE TO CARRANZA, IF U. S. TROOPS ARE ATTACKED

Curt Reply to Demand for Withdrawal of American Forces Refuses to Yield and Expresses Surprise Over Request

BANDITS UNHAMPERED, UNPUNISHED, PRESIDENT WILSON TELLS MEXICANS

Threatens Carranza with the "gravest consequences" if he attacks American troops now in Mexico. Resents Carranza's "discourteous tone and temper" in his last note.

WASHINGTON, June 20.—President Wilson's note flatly refusing General Carranza's demand for the withdrawal of American troops from Mexico was made public today.

The Secretary of State to the Secretary of Foreign Relations of the de facto Government of Mexico:

Department of State, Washington, June 20, 1916.

"Sir—I have read your communication, which was delivered to me on May 22, 1916, under instructions of the Chief Executive of the de facto Government of Mexico, on the subject of the presence of American troops in Mexican territory, and I would be wanting in candor if I did not, before making answer to the allegations of fact and the conclusions reached by your Government, express the surprise and regret which have been caused by your Government by the discourteous tone and temper of this last communication of the de facto Government of Mexico.

"The Government of the United States has viewed with deep concern and increasing disappointment the progress of the revolution in Mexico. Continuous bloodshed and disorders have marked its progress. For three years the Mexican Republic has been torn with civil strife; the lives of Americans and other aliens have been sacrificed; vast properties developed by American capital and enterprise have been destroyed or rendered nonproductive; bandits have been permitted to roam at will through the territory contiguous to the United States and to seize, without punishment or without effective attempt at punishment, the property of Americans.

"It would be difficult to find in the annals of the history of Mexico conditions more deplorable than those which have existed there during these recent years of civil war."

"ATROCITY AFTER ATROCITY."

The note frankly says "it would be tedious to recount instance after instance, outrage after outrage, atrocity after atrocity." It does mention, however, specific cases.

Details of attacks on Brownsville, Redhouse Ferry, Progreso postoffice and Las Piedras, "all occurring during last September," are mentioned briefly.

"In these attacks," the note continues, "Carranzista adherents and even Carranzista soldiers took part in the looting, burning and killing. Not only were these murders characterized by ruthless brutality, but uncivilized acts of mutilation were perpetrated. Notwithstanding representations to General Carranza and the promise of General Nariete to prevent attacks along the international boundary, in the following month of October a passenger train was wrecked by bandits and several persons killed seven miles north of Brownsville, and an attack was made upon United States troops at the same place several days later. Since these attacks leaders of the bandits, well known both to Mexican civil and military authorities, as well as to American officers, have been enjoying with impunity the liberty of the towns of northern Mexico.

"So far has the indifference of the de facto Government to these atrocities gone that some of these leaders, as I am advised, have received not only the protection of their Government, but encouragement and aid as well."

DEPREDACTIONS BY VILLA AND HIS MEN.

Secretary Lansing also takes up, in considerable detail, the more notorious "depredateions" against Americans in Mexico and on American border towns. Among these instances, all of which heretofore have been told of in detail, press accounts

TEXAS TOWN THREATENED BY ON-COMING CARRANZISTA FORCE; U. S. READY TO STRIKE

Yaqui Indians Join Mexicans in Move Against Del Rio—60,000 Soldiers Massed in Chihuahua Prepared to Meet Attack

BROWNSVILLE, Tex., June 20.—Fugitives arriving at Matamoros reported that all the Americans at Cerralvo mine in Nuevo Leon had been murdered by Mexicans. The report is unconfirmed.

EAGLE PASS, Tex., June 20.—Antiforeign feeling at Saltillo is so intense that several Americans and Englishmen were forced to take refuge in the British consulate Sunday night, according to reports received here. The demonstrations occurred shortly after Consul Silliman received his passports and left for the border.

SAN ANTONIO, Tex., June 20.—General Funston announced today that the quartermaster's department at Fort Sam Houston had been ordered by the War Department to purchase 50,000 horses and mules for the National Guard.

Movement of Mexican military forces today threatened the Texas town of Del Rio, it being reported that a force of 1500 de facto soldiers, strengthened by a band of Yaqui Indians, was within less than a day's march of that position. Reinforcements were dispatched at once by General Funston.

Carranzista troops numbering 60,000 are entrenched in Chihuahua State ready to back up their first Chief's latest defiance to the United States, namely, that if another American trooper crosses the border it will be a signal for attack. This places the next move up to the northern Republic.

On the other hand, President Wilson's note refusing Carranza's demand that the American expedition be withdrawn at once was sent to the de facto chief today. This places the next move up to Carranza. (It is a belligerent Alphonse-Gaston situation.)

The President's reply was a blunt, stinging answer to Carranza's insolence, stating plainly that any attempt to attack the American forces now in Mexico would lead to "the gravest consequences." The United States positively refuses to budge an inch.

It is certain that if another bandit band crosses into the United States American troops will pursue, even across the border. This will precipitate exactly the situation that Carranza has given every evidence of seeking, throwing the blame for invasion and attack upon the United States.

Warships have been rushed to Mexican waters preparatory to blockading the ports and cutting off Carranza's supplies.

Recruiting for the navy was decided upon to meet any possible emergency. Response by the National Guard to the President's order is with a rush. Volunteers also may be called.

The states of Sinaloa and Yucatan, independently, have declared a state of war with the United States.

England and France will loyally support America's policy in Mexico, according to announcement in Paris.

MEXICAN TROOPS AND YAQUI FORCE THREATEN DEL RIO, TOWN IN TEXAS

SAN ANTONIO, Tex., June 20.—A battalion of the 3d United States Cavalry reached Del Rio today, from Eagle Pass, to protect the town from 1500 Carranzista soldiers and a few Yaqui Indians that are reported to be marching in that direction.

According to information reaching Major General Funston, the Mexicans are only 40 miles from Del Rio. The Del Rio situation is regarded as very grave. The citizens are clamoring for more protection.

Colonel Sibbey's command there is of fair strength and with the reinforcements he should be able to defend the city from the Mexicans and Yaquis in case they attack, according to Funston.
